Issue 4 of Volume 63

A. Bertrand, G.F. Tremblay, S. Pelletier, Y. Castonguay and Belanger Yield and nutritive value of timothy as affected by temperature, photoperiod and time of harvest

L.M. Hansen and B. Boelt Thresholds of economic damage by clover seed weevil (Apion fulvipes Geof.) and lesser clover leaf weevil (Hypera nigriostris Fab.) on white clover (Trifolium repens L.) seed crops

J.E. Neilsen, B.A. Rowe and P.A. Lane Vegetative growth and development of irrigated forage turnip (Brassica rapa var. rapa)

W.M. Clapham and J.M. Fedders Effect of sowing date of triticale on seasonal herbage production in the central Appalachian Highlands of the United States

J.E. Woodis and R.D. Jackson The effects of clipping height and frequency on net primary production of Andropogon gerardii (C4 grass) and Bromus inermis (C3 grass) in greenhouse experiments

J. Humphreys, K O’Connell and I.A. Casey Nitrogen flows and balances in four grassland-based systems of dairy production on a clay-loam soil in a moist temperate climate

J. Humphreys, I.A. Casey, P. Darmody, K. O’Connell, O. Fenton and C.J. Watson Quantities of mineral N in soil and concentrations of nitrate-N in groundwater in four grassland-based systems of dairy production on a clay-loam soil in a moist temperate climate

A. E. Osman, M. Makawi and R. Ahmed Potential of the indigenous desert grasses of the Arabian Peninsula for forage production in a water-scare region

G. D. Berone, F.A. Lattanzi, M.G. Agnusdei and N. Bertolotti Growth of individual tillers and tillering rate of Lolium perenne and Bromus stamineus subjected to two defoliation frequencies in winter in Argentina

S.T.J. Lalor and R.P.O. Schulte Low-ammonia-emission application methods can increase the opportunity for application of cattle slurry to grassland in spring in Ireland
