C.K. Mackie, J.R. Weddell and D. Younie  Graeme J F Copeman: an appreciation

K.Bartl, J. Gamarra, C.A. Gomez, H.R. Wettstein, M. Kreuzer and H.D. Hess  Agronomic performance and nutritive value of common and alternative grass and legume species in the Peruvian highlands

J. Cop, A. Lavrencic and K. Kosmelj  Morphological development and nutritive value of herbage in five temperate grass species during primary growth: analysis of time dynamics

M. Wachendorf, F. Richter, T. Fricke, R. Grab and R. Neff  Utilization of semi-natural grassland through integrated generation of solid fuel and biogas from biomass. I. Effects of hydrothermal conditioning and mechanical dehydration on mass flows of organic and mineral plant compounds, and nutrient balances

Z. Matinkova, A. Honek and S. Pekar  Seeds availability and gap size influence seeding emergence of dandelion (Taraxacum Officinale) in grasslands

S. Saari, P. Lehtonen, M. Helander and K. Saikkonen  High variation in frequency of infection by endophytes in cultivars of meadow fescue in Finland

P.W. Bartholomew and R.D. Williams  Establishment of Italian Ryegrass (Lolium Multflorum Lam.) by self-seeding as affected by cutting date and degree of herbage removal in spring pastures of the southern Great Plains of the United States

H.M. Hanslin and M. Hoglind  Differences in winter-hardening between phenotypes of Lolium perenne with contrasting water-soluble carbohydrate concentrations

G. Van Ranst, V. Fievez, M. Vandewalle, J. De Riek and E. Van Bockstaele  Influence of herbage species, cultivar and cutting date on fatty acid composition of herbage and lipid metabolism during ensiling

M. Scotton, L. Piccinin, M. Dainese and F. Sancin  Seed production of an Arrhenatherion elatioris hay-meadow in the eastern Italian Alps

R.A. Palladino, M. O'Donovan, E. Kennedy, J.J. Murphy, T.M. Boland and D.A. Kenny  Fatty acid composition and nutritive value of twelve cultivars of perennial ryegrass
