

BGS Grazing Mentors

A Prince's Countryside Fund supported project

British Grassland Society Grazing Mentors Project

Thank you for your interest in participating in the BGS Grazing Mentors Project.

We are able to offer free one-to-one mentoring through this initiative due to funding support from the Prince's Countryside Fund.

The purpose of the project is to improve the utilisation of grassland for meat or milk production through a mentoring approach

Through the project livestock farmers are able to receive:

- Initial visit with mentor, including goal setting
- Intermediate contact with mentor via phone or email
- Follow-up visit (potential to be at either the mentee's or mentor's farm)
- Feed data in to project outcomes review activity with BGS

To complete your registration for the project please fill-in as much of the attached farm information form as possible and return it to BGS.

Data included in the form will help the mentor prepare for working with you, and may be used anonymously by BGS evaluate the project and create new out-reach material or to demonstrate outcomes for future funding proposals, within the charitable aims of the Society (www.britishgrassland.com).

Following receipt of your registration form, BGS will provide the mentor with your details, who will then contact you directly to arrange the initial meeting.

Kind regards

British Grassland Society
