

## Mentor Profile:

### Keith Davis

Keith is the dairy manager for Lydney Park Farms in Gloucestershire, where 1000 cows are milked once-a-day on an intensively managed grazing based system. Keith developed his grazing management skills from discussion groups, grassland consultants and personal study tours.

Keith also manages a team of up to 11 full and part time staff. He greatly enjoys working with their different personalities and getting the best out of them for the farm plus developing their skills so that they can move up through the business or the industry.
